

AMERICA'S FAVORITE HITCH

ACTIVATOR® IV

ELECTRIC TRAILER BRAKE CONTROL

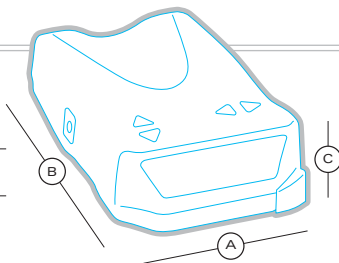

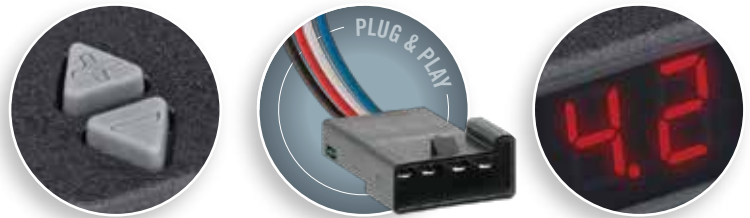

▶ BEAT THE HEAT

SMALLER SIZE, HIGHER HEAT CAPACITY

Introducing Draw-Tite's new Activator® IV Electric Brake Control. Designed and manufactured by the experienced team behind I-Stop™ IQ, the Activator® IV is an upgrade to the Activator® II with more value.

- Compact design fits most anywhere with no leveling required (2.75" W x 4.186" D x 1" H)
- High heat capacity handles 1-4 axle trailers (up to 8 brakes) including today's heavier trailers
- Plug and Play with a longer 8" harness for quick and easy installation and connection
- Up-front controls makes push-button adjustments simple
- Digital output indicator provides easily visible braking data
- Diagnostics warn driver of potential issues
- Backed by a trusted manufacturer and a limited lifetime warranty

PART # 5504

A 2.75" WIDE

B 4.186" DEEP

C 1" HIGH

BEEN THERE. TOWED THAT.

Millions of consumers put their faith in the Draw-Tite brand – and the dealer who sells it.
